

# MEETING SUMMARY | Southern Sierra IRWMP Planning Committee January 16, 2013

Fresno Metropolitan Flood Control District, 12:30 pm to 4:30 pm

## 1. Action Items

1. Bobby Kamansky will follow up with Siran about data and maps.
2. Bobby Kamansky will include Michelle Dooley in all Coordinating Committee meetings and emails.
3. Steve Haze to add a note about a study or a map of potential groundwater plumes.
4. Carolyn Hunsacker to send note about workshops in Sacramento on Science Synthesis
5. SPUD to break out two phases for project
6. Send email with deadlines (plan comments: Feb 7th; Project submission Feb 1st), plan draft, ranking matrix, project information form, meeting summary, revised near-term work plan.

## 2. Project Updates

1. Strategic IRWM Plan meeting in Fresno April 10 Location?
2. Roundtable of Regions – meeting to discuss interfacing with DWR
3. Implementation Program Workshops are coming up
4. Adaptation workshop is late February
5. Sierra Water Workgroup – J. Shelton working on the agenda, will be in Kings Beach, second week in June, 2013

## 3. Interested Party Comments

Michelle Dooley commented about the facilitation services contract and Bobby updated group on the plan to apply for another round of facilitation while also leaving in funds. Michelle also brought up the concept of working on GIS data to display and for analysis.

**ACTION ITEM:** Bobby Kamansky will follow up with Siran about data and maps.

**ACTION ITEM:** Bobby Kamansky will include Michelle Dooley in all Coordinating Committee meetings and emails.

Steve Haze noted that there may be a conflict with SNAMP workshop; Jeannie will forward email to Bobby.

## 4. Review of Draft IRWM Plan and Edits since November

- Self-sufficiency for human population first?
- Fractured rock aquifer – need to understand this resource to ensure self-sufficiency. MAINTAIN current self-sufficiency.
- Is this a resource management strategy or can we add something to values?

Additional suggested edits:

1. Note about PSP and notes for application introduction page 32 in implementation PSP
2. Add specific geographic references for projects and add detail about tribal water needs
3. Add notes about what specific chapters are supported by studies
4. Add a project about water use efficiency
5. Add project information form as appendix

**ACTION ITEM:** Steve Haze to add a note about a study or a map of potential groundwater plumes.

**ACTION ITEM:** Carolyn Hunsacker to send note about workshops in Sacramento on Science Synthesis

**ACTION ITEM:** SPUD to break out two phases for project

**ACTION ITEM:** Send email with deadlines (plan comments: Feb 7th; Project submission Feb 1st), plan draft, ranking matrix, project information form, meeting summary, revised near-term work plan.
